

# PHST respiratory medicine recruitment – shortlist score data (2013-2024)

This document contains shortlist score data for PHST respiratory medicine recruitment. Graphs depicting the distribution of shortlisting scores are presented for both rounds 1 & 2.

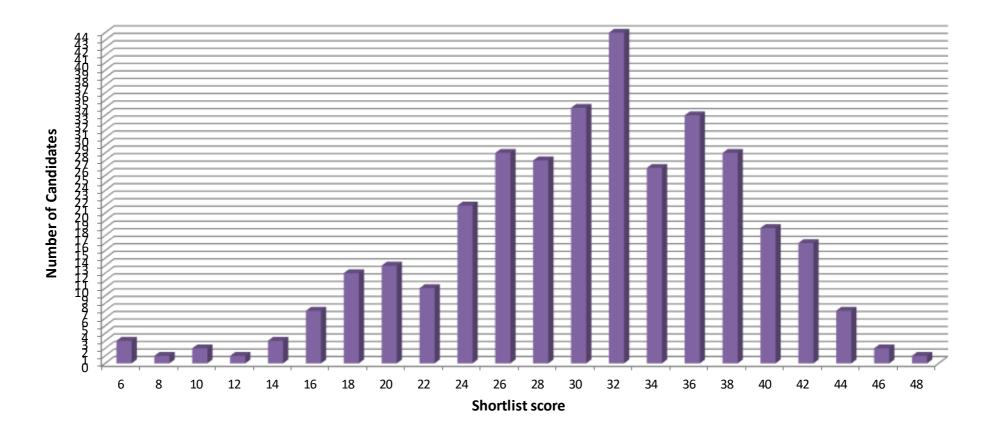

# PHST respiratory recruitment – shortlist score distribution 2024 (round 1)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2024 PHST recruitment round 1.

The number of applications proceeding to the shortlisting stage was 337; shortlist scores ranged from 5-47 (min and max possible were 0-50).

Mean and median averages achieved were **30** (30.1) and **31** respectively.

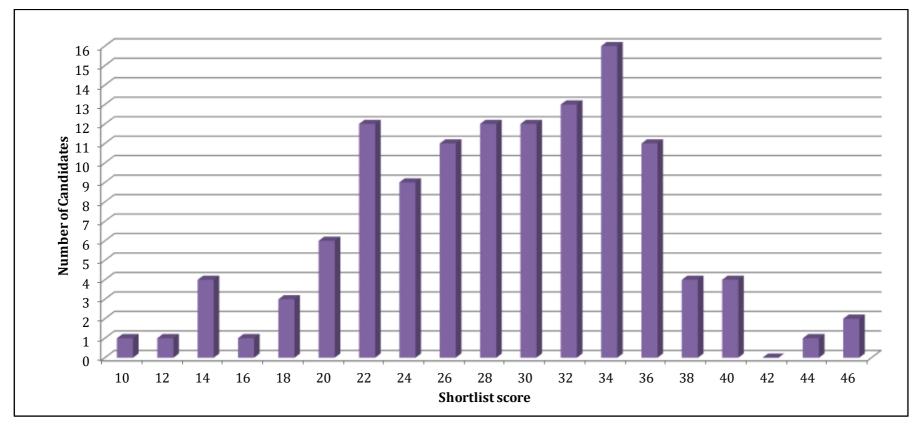

# PHST respiratory recruitment – shortlist score distribution 2023 (round 2)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2023 PHST recruitment round 2.

The number of applications proceeding to the shortlisting stage was 123; shortlist scores ranged from 9-46 (min and max possible were 0-50).

Mean and median averages achieved were 28 (28.2) and 29 respectively.

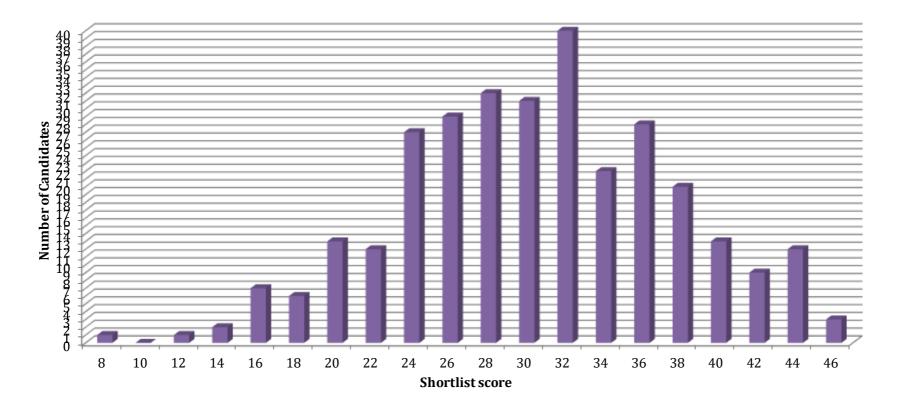

#### PHST respiratory recruitment – shortlist score distribution 2023 (round 1)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2023 PHST recruitment round 1.

The number of applications proceeding to the shortlisting stage was **308**; shortlist scores ranged from **8-45** (min and max possible were 0-50).

Mean and median averages achieved were 30 (29.9) and 30 respectively.

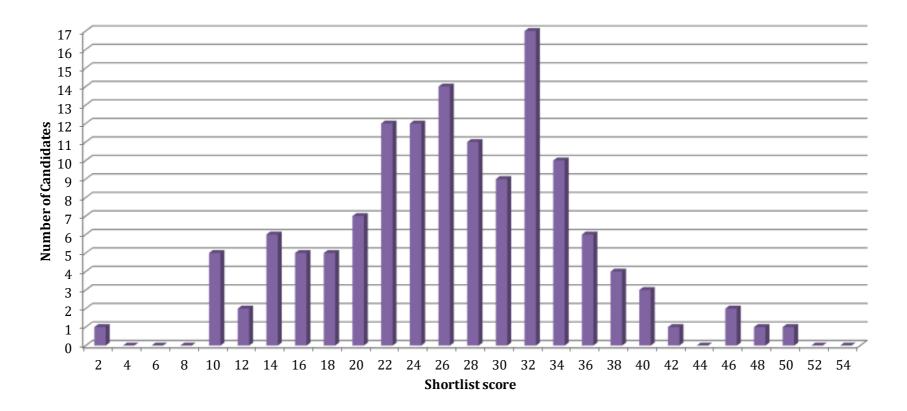

## PHST respiratory recruitment – shortlist score distribution 2022 (round 2)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2022 PHST recruitment round 2.

The number of applications proceeding to the shortlisting stage was 134; shortlist scores ranged from 2-49 (min and max possible were 0-58).

Mean and median averages achieved were 26 (26.1) and 26 respectively.

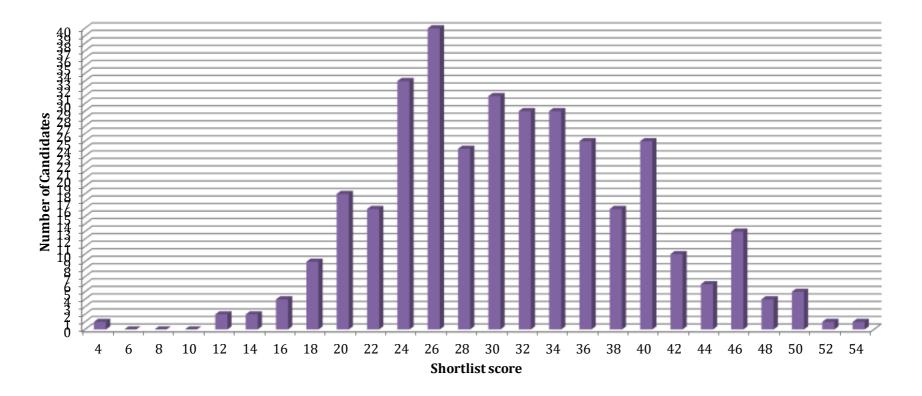

# PHST respiratory recruitment – shortlist score distribution 2022 (round 1)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2022 PHST recruitment round 1.

The number of applications proceeding to the shortlisting stage was **344**; shortlist scores ranged from **4-53** (min and max possible were 0-58).

Mean and median averages achieved were **31** (30.53) and **30** respectively.

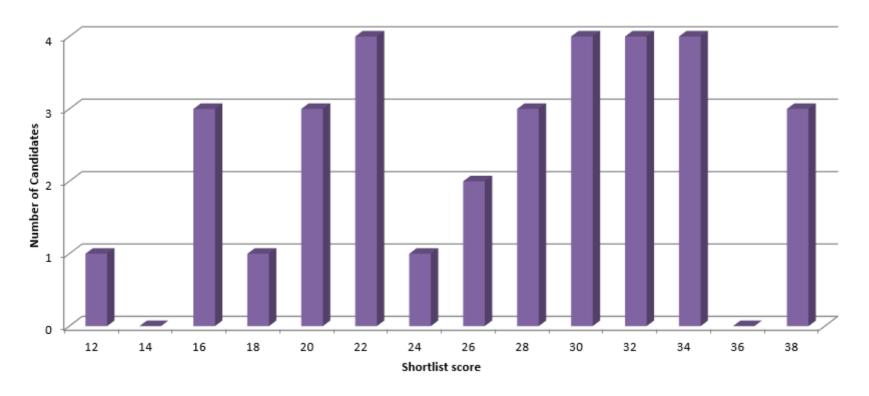

## ST3 respiratory recruitment – shortlist score distribution 2021 (round 1)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2021 ST3 recruitment round 1.

The number of applications proceeding to the shortlisting stage was **33**; shortlist scores ranged from **12-38** (min and max possible were 0-56). Mean and median averages achieved were **26** (26.36) and **28** respectively.

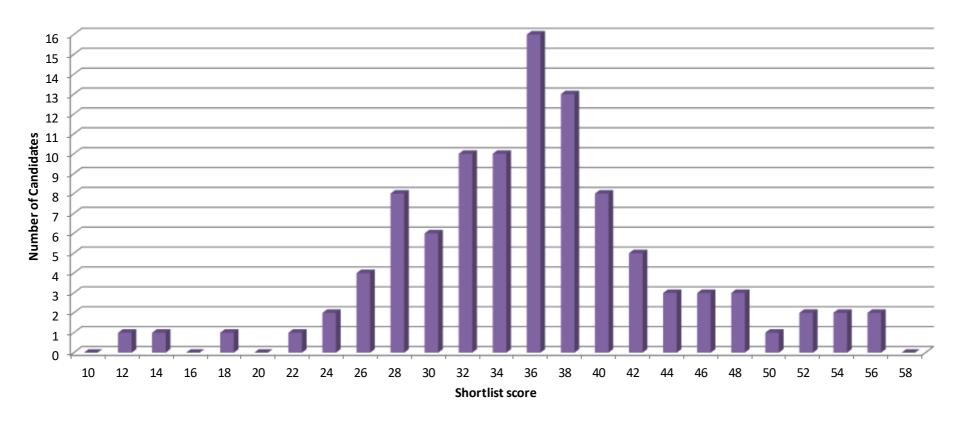

## ST3 respiratory recruitment – shortlist score distribution 2020 (round 2)

The graph below shows the distribution of shortlist scores (verified self-assessment scores) awarded to all respiratory medicine applications which reached the evidence verification stage in 2020 ST3 recruitment round 2.

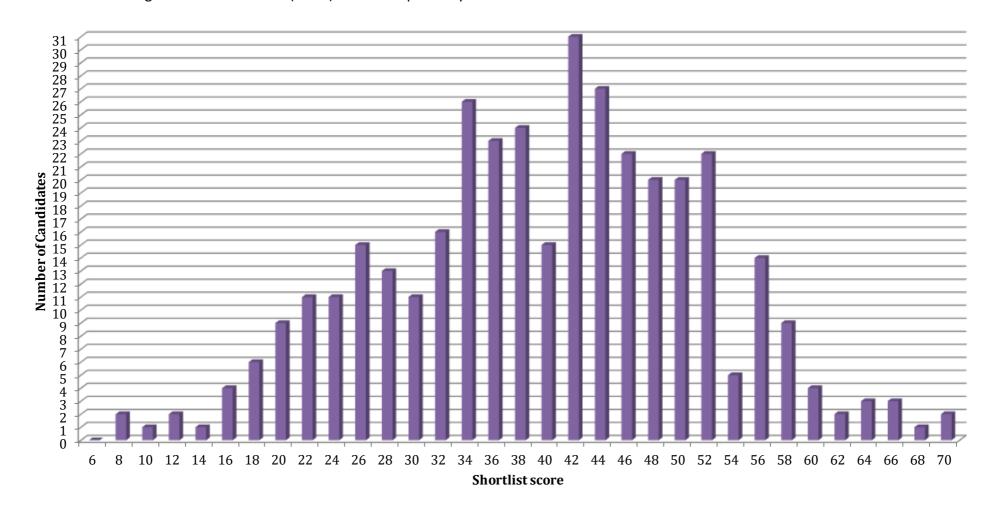

The number of applications proceeding to the shortlisting stage was **102**; shortlist scores ranged from **12-55** (min and max possible were 0-68). Mean and median averages achieved were **35** (35.45) and **35** respectively.

# ST3 respiratory recruitment – shortlist score distribution 2020 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2020 ST3 recruitment round 1. The number of applications proceeding to the shortlisting stage was **375**; shortlist scores ranged from **7-70** (min and max possible were 0-80). Mean and median averages achieved were **39** (39.19) and **40** respectively.

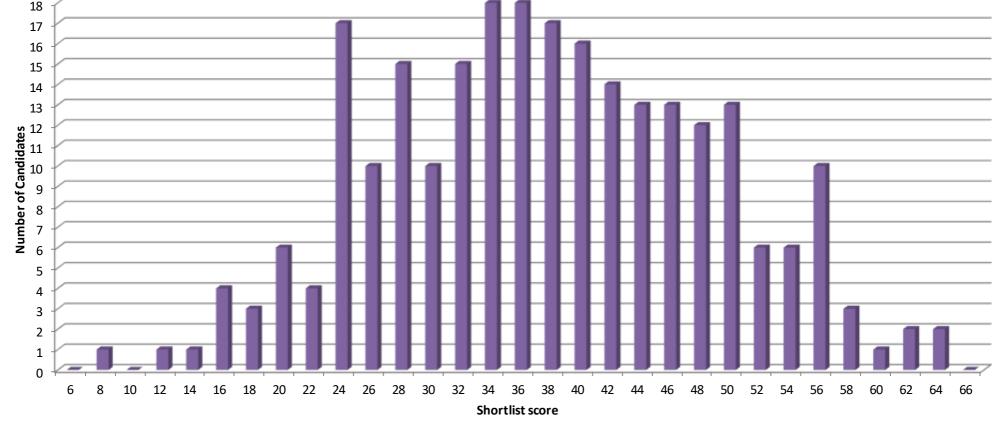

# ST3 respiratory recruitment – shortlist score distribution 2019 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2019 ST3 recruitment round 1.

The number of applications proceeding to the shortlisting stage was **251**; shortlist scores ranged from **7-64** (min and max possible were 0-80).

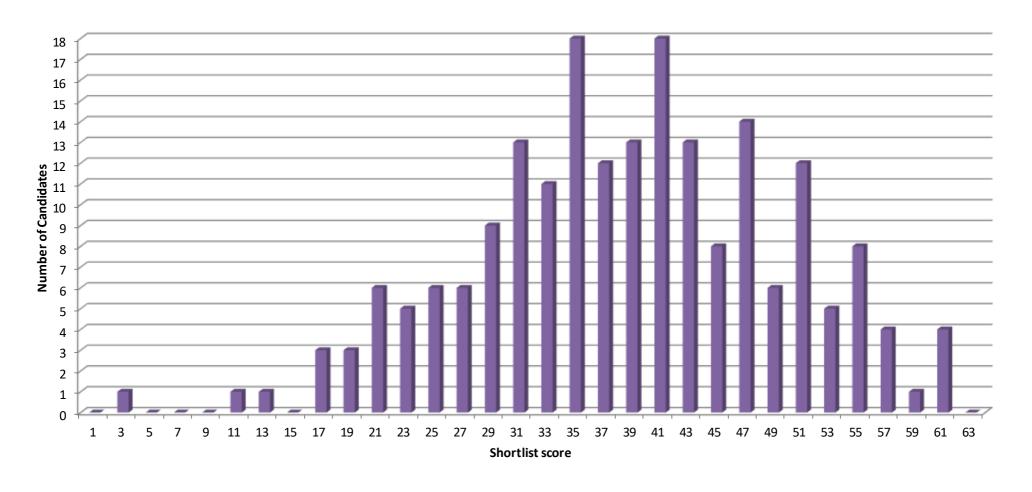

Mean and median averages achieved were **37** (37.1) and **37** respectively.

#### ST3 respiratory recruitment – shortlist score distribution 2018 (round 1)

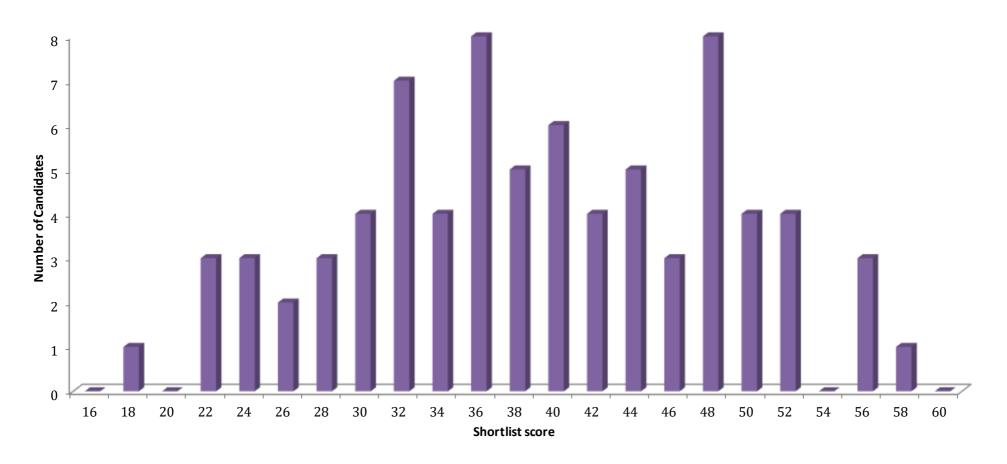

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2018 ST3 recruitment round 1. The number of applications proceeding to the shortlisting stage was **201**; shortlist scores ranged from **4-62** (min and max possible were 0-80). Mean and median averages achieved were **39** (39.02) and **39** respectively.

# ST3 respiratory recruitment – shortlist score distribution 2018 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2018 ST3 recruitment round 2. The number of applications proceeding to the shortlisting stage was **78**; shortlist scores ranged from **18-57** (min and max possible were 0-80). Mean and median averages achieved were **38** (38.27) and **37** respectively.

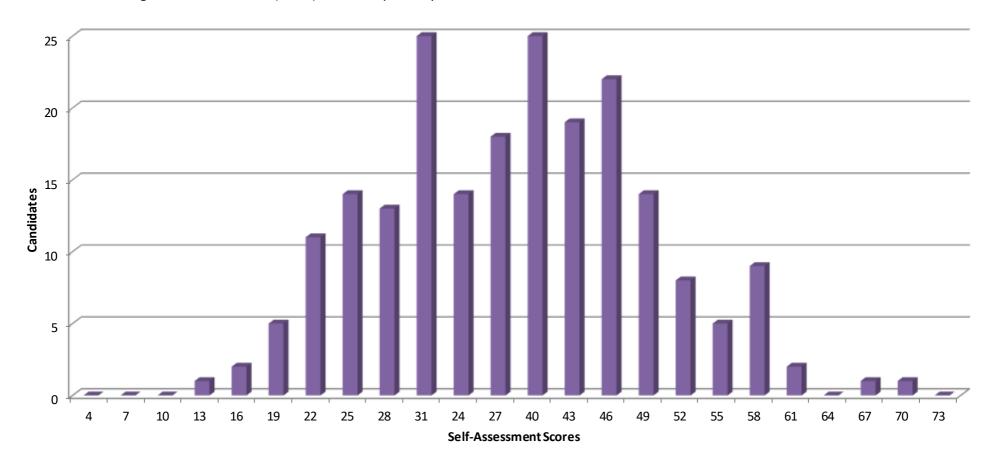

#### ST3 respiratory recruitment – shortlist score distribution 2017 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2017 ST3 Recruitment round 1.

The number of applications submitted was 216; shortlist scores ranged from 12-69 (min and max possible were 0-78).

Mean and median averages achieved were 40 (39.48) and 39 respectively.

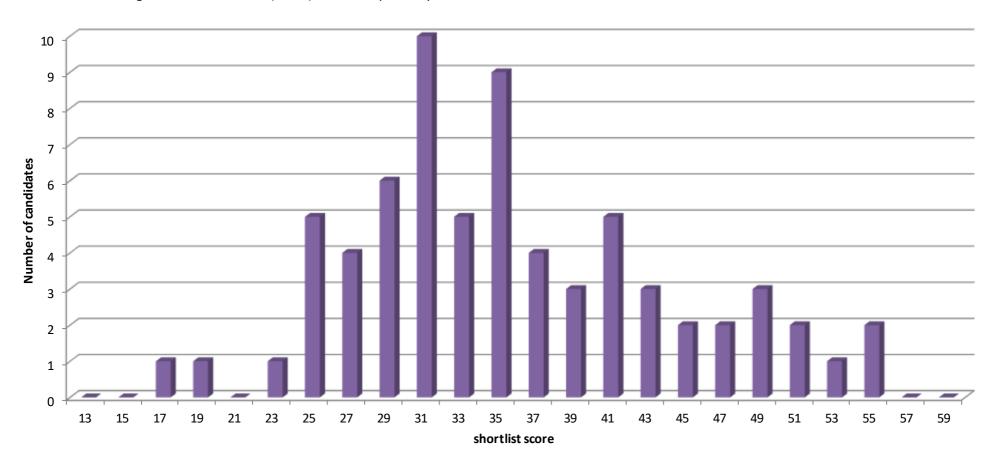

#### ST3 respiratory recruitment – shortlist score distribution 2017 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2017 ST3 recruitment round 2.

The number of applications submitted was 69; shortlist scores ranged from 17-56 (min and max possible were 0-80).

Mean and median averages achieved were **36** (36.05) and **35** respectively.

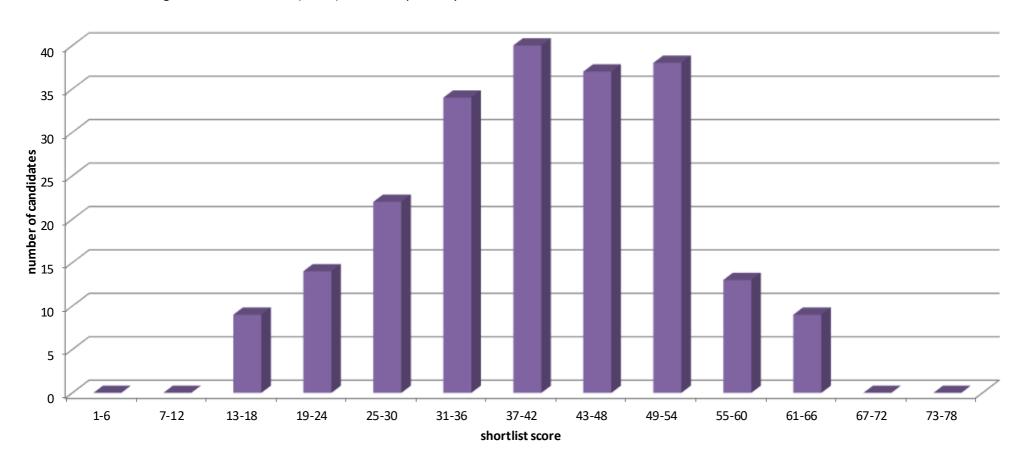

#### ST3 respiratory recruitment – shortlist score distribution 2016 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2016 ST3 Recruitment round 1.

The number of applications submitted was 216; shortlist scores ranged from 13-66 (min and max possible were 0-78).

Mean and median averages achieved were 40 (40.44) and 42 respectively.

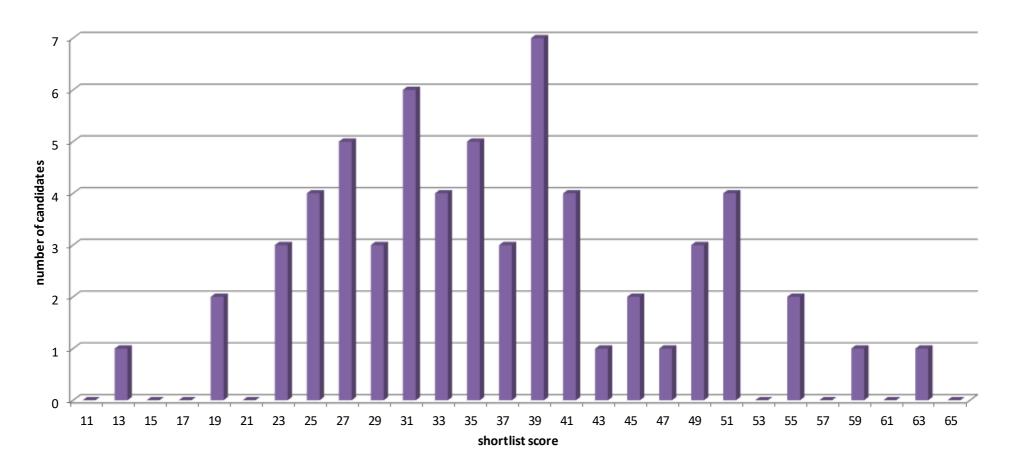

#### ST3 respiratory recruitment – shortlist score distribution 2016 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2016 ST3 Recruitment round 2.

The number of applications submitted was 62; shortlist scores ranged from 14-64 (min and max possible were 0-78).

Mean and median averages achieved were **37** (36.75) and **36** respectively.

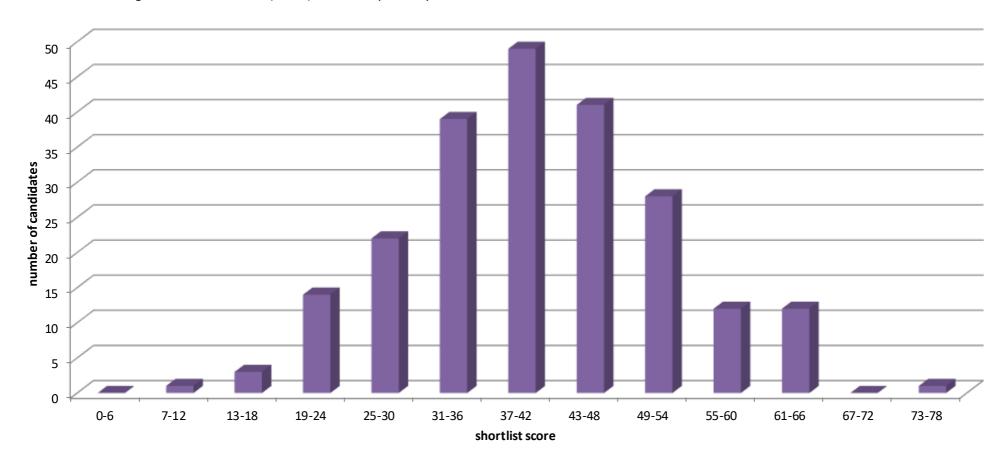

#### ST3 respiratory recruitment – shortlist score distribution 2015 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2015 ST3 Recruitment round 1.

The number of applications submitted was 222; shortlist scores ranged from 11-77 (min and max possible were 0-78).

Mean and median averages achieved were 41 (40.74) and 41 respectively.

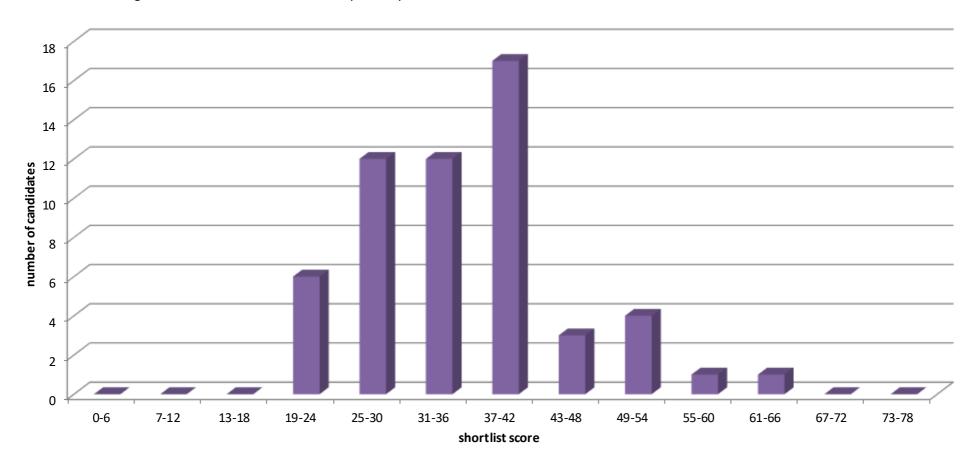

## ST3 respiratory recruitment – shortlist score distribution 2015 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2015 ST3 Recruitment round 2.

The number of applications submitted was **56**; shortlist scores ranged from **19-63** (min and max possible were 0-78).

Mean and median averages achieved were 35.54 and 36 respectively.

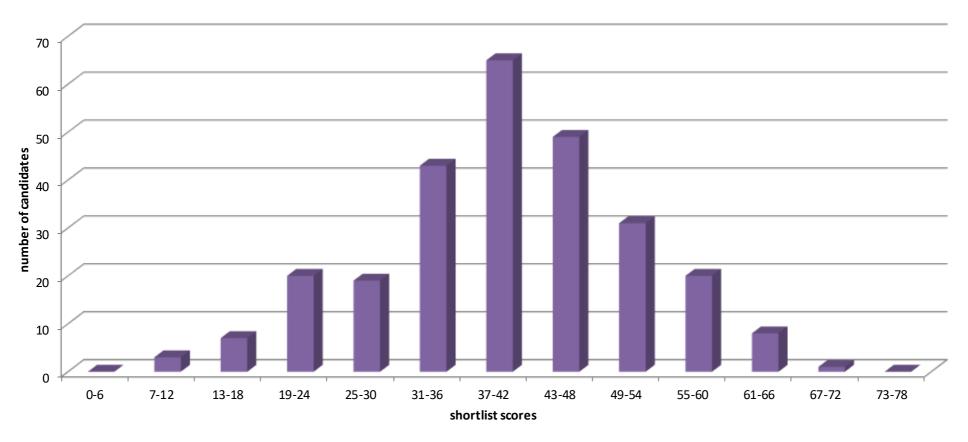

#### ST3 respiratory recruitment – shortlist score distribution 2014 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2014 ST3 Recruitment round 1.

The number of applications submitted was 266; shortlist scores ranged from 8-67 (min and max possible were 0-78).

Mean and median averages achieved were 40 (39.95) and 40 respectively.

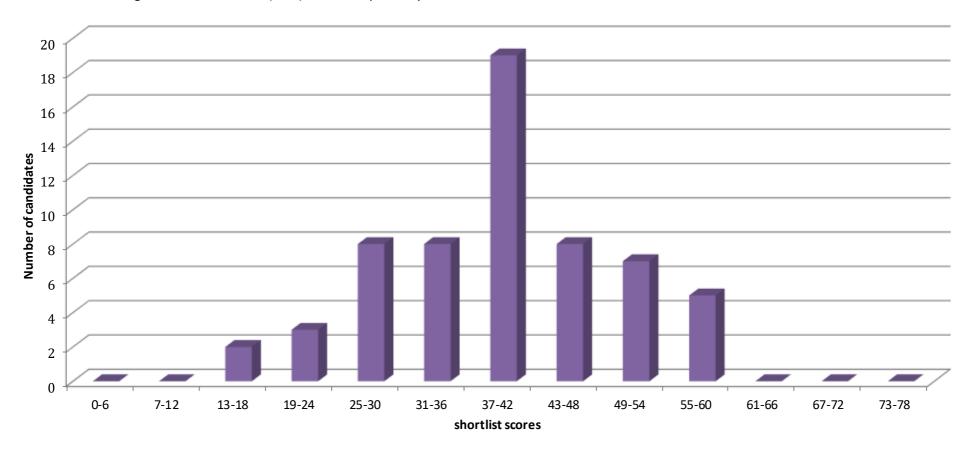

#### ST3 respiratory recruitment – shortlist score distribution 2014 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2014 ST3 Recruitment round 2.

The number of applications submitted was 60; shortlist scores ranged from 16-60 (min and max possible were 0-78).

Mean and median averages achieved were 40 (39.6) and 40 respectively.

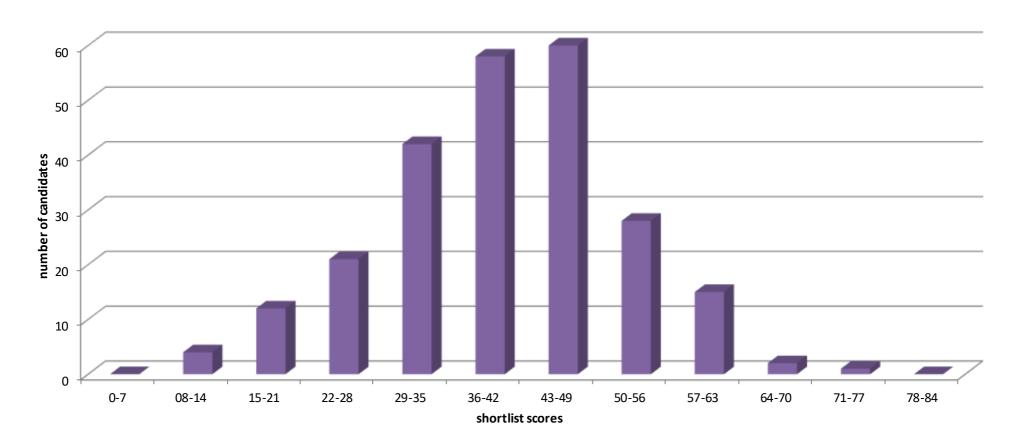

#### ST3 respiratory recruitment – shortlist score distribution 2013 (round 1)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2013 ST3 Recruitment round 1.

The number of applications submitted was 272; shortlist scores ranged from 12-72 (min and max possible were 0-78).

Mean and median averages achieved were 40 (39.92) and 40.5 respectively.

## ST3 respiratory recruitment – shortlist score distribution 2013 (round 2)

The graph below shows the distribution of shortlist scores awarded to all respiratory medicine applications submitted in 2013 ST3 Recruitment round 2.

The number of applications submitted was **70**; shortlist scores ranged from **15-58** (min and max possible were 0-78).

Mean and median averages achieved were 38 (37.87) and 38 respectively.
